S. Smita Sreeram

Project Manager | Business Transformation | Business Analyst | Consultant

Client-facing project and transformation consultant with 5+ years across SAP, Salesforce and automation. Manages multiple concurrent \$500K+ ACV client engagements end to end: onboarding, governance, prioritisation and escalation across sales, delivery and partner teams. PGPM (MBA) from SPJIMR. Targeting Project Management, Business Transformation, Business Analyst and Consulting roles in the UAE.

EXPERIENCE

Consultant | Client Delivery & Transition Lead

Mar 2025 – Present

NTT DATA Business Solutions (on-site, SAP Labs India)

NTT DATA

- Own end-to-end delivery of [X] concurrent enterprise client engagements, each >\$500K ACV: kick-off, technical workshops, go-live, stabilisation and handover to RUN & Monitoring Ops
- Set portfolio priorities using a risk, dependency and ACV-weighted RAG view; rebalance SMEs and capacity across projects to hold on-time go-live at [XX]%
- Single point of accountability across Sales, Pre-sales, ASMs, GCO/ECS, Premium Engagement, Partners and Professional Services; own Sales-to-Delivery handover and scope alignment
- Run bi-weekly governance with client and Service Delivery leadership on milestones, risks, dependencies and resourcing; drive escalations to closure and de-escalate at-risk accounts
- Lead and mentor 6 consultants: capacity planning, workload balancing and issue resolution, improving on-time delivery by [X]%
- Cut performance-test readiness effort by [X]% by securing customer access up front and rationalising T-code scenarios

Associate Consultant

Jan 2022 – Jan 2024

Wipro Limited

WIPRO

- Orchestrated test cases for SAP ECC to S/4HANA Cloud migration: 40% faster data processing, more accurate cross-department reporting
- Delivered test plans for Salesforce FSC/CRM workflows: 20% fewer critical defects, 15% higher application stability
- Built automated Power BI test-status dashboard: 60% less monitoring time, daily stakeholder visibility
- Evaluated automation tools on cost, performance, compatibility and support; delivered feasibility analysis and POCs for One Desk and AI assistant Amelia
- Trained 10+ new hires in testing and Tricentis TOSCA; reported quality metrics and risks to stakeholders

Systems Engineer (Trainee to Engineer)

Aug 2019 – Jan 2022

Infosys Limited

INFOSYS

- Automated 400+ E2E regression cases across SAP SD, FI/CO, MM, PP and QM (HP UFT): 30% less test time, 400+ defects caught per year, 20+ person-days saved monthly
- Built reusable frameworks and libraries: 70% less maintenance effort, 50% higher process efficiency
- Led PLM module: requirements, RTM, test plans and execution
- Ran 200+ scripts in parallel on Azure VMs across multiple servers
